Dear BHS Parents and Guardians,

The purpose of this note is to let you know that we had a brief "hold and secure" at the school this morning. This means teachers kept students inside their classrooms while we dealt with an individual in crisis.

We called emergency services and kept other students out of the hallway until the person could receive the assistance required. The entire hold and secure lasted about 10 minutes, and BHS students and staff remained safe at all times.

Please do not hesitate to contact me should you have any questions.

Sincerely,

James Patenall

Principal
