

### **Regular Half Day Co-op**

**COP4X2**

Cooperative Education is an experiential learning program that allows students to earn secondary school credits while gaining on-the-job work experience. A co-op program must be based on a related curriculum course(or courses) in which the student is either enrolled or successfully completed. The course consists of a classroom component comprising of pre-placement and integration activities and a placement component (minimum of 110 hours of work per co-op credit) Together these constitute a student's co-op program, designed to suit the student's strengths, interests, needs and to enhance preparation for the future. Students are required to complete an application form, submit a resume and attend an interview. The Ministry of Education provides Workplace Safety and Insurance Board coverage for all co-op students.

**COURSE NOTE:** Please complete a co-op application and return it to the co-op office ASAP when selecting this course.
